Chief of  
Commissioners

Dear Community Partners:

Lou Thompson from AMDD at the State of Montana would like to come to Ravalli County to provide information and training on 72 hour presumptive eligibility. Our County has been chosen as a pilot site to receive this special funding for consumers without insurance that may be admitted to our new Crisis Stabilization Center which is scheduled to open in March, 2008. She has requested that a representative from each of your offices be selected to attend this training. Possible dates that she has available are: February 12, 15, 22, 21 or 22; she has not provided any times, but I would propose a 10:00 a.m. meeting either here at Riverfront or if MDMH has a conference room available that would also be appropriate. Please reply to me by e-mail with dates that would be available and I will try to get this meeting finalized (kmiller@wmmhc.org).

I appreciate your support for our crisis stabilization program and your participation in this important meeting.

Sincerely,

*Kimberlie Miller*

Kimberlie Miller, MSW  
Office Director
